

## **Learn as you need it** **Spanish and business**

### **¿Why learn Spanish?**

- Because you need it for your professional career.
- Because more than 500 million people around the world speak Spanish as a native language, and many more speak it as a second language.
- Because learning Spanish will mean that you will be able to communicate with most of the people in the world.
- Because learning a language enriches you culturally.
- Because you are in love with Spanish culture.
- Because you want to live in Spain in the future.
- Because you just love learning!
- .....

Whatever your reason is to learn, we will help you to achieve your goals.

We offer you two types of immersion programs. Just choose what suits you better.

- Fit your needs
- Lessons and activities

## **Fit your needs**

Our hectic lives sometimes don't allow us enough time to sit down and spend several hours in class learning. That's why we have created a new immersion program, in which you will learn as you go and as you need it. We will fit in your routine so you can learn Spanish without wasting your time.

A bilingual teacher will be with you all day long, so that you can learn Spanish as you need it: breakfast, lunch, dinner, meetings, visits... You will practice Spanish in every daily situation so you will be able to communicate and make business at any time. The teacher will teach you vocabulary, expressions, cultural words, grammar, and everything you need to improve your language skills during the day. You won't lose time in a school, because we fit your daily life. There is no better way to learn than practicing.

## Lessons and activities

Sometimes people find it difficult to sit down for several hours in class in order to learn a language, so why don't we learn Spanish as we go? We have mixed activities and business Spanish lessons so you can make the most of your time and our courses. You will learn Spanish during the classes and along the day with our teacher.

We will offer you special courses depending on your needs. Every course has a main goal: to teach you how to communicate in Spanish. We will teach you everything you need to know about one of the most enriching languages in the world, the Spanish language.

We have excellent teachers who will help you to achieve your goals throughout the course. And you will have a group of people helping you organize anything you need outside the school: accommodation, airport transfers, trips, and cultural visits.....
