## COURSES

Sometimes people find it difficult to sit down for several hours in class in order to learn a language, so why don't we learn Spanish as we go? We have mixed tourism and lessons so you can make the most of your holidays and our courses. You will learn Spanish during the lessons but as well along the day. A teacher will be with you during the day, that way you will be taught how to communicate in Spanish in every situation that you need.

We will offer you special courses depending on your needs. Every course has a main goal: to teach you how to communicate in Spanish. We will teach you everything you need to know about one of the most enriching languages in the world, the Spanish language.

We have excellent teachers who will help you to achieve your goals throughout the course. And you will have a group of people helping you organize anything you need outside the school: accommodation, airport transfers, trips, and cultural visits.....Here, in Let's Go! School, we like to think that we are like a family trying to help each other. In Let's go! School you won't be just one more student, you will be part of our school. Our commitment and care will make you feel comfortable and relaxed, even when you are far away from home.

There are 3 classrooms plus a study room where you will be able to find everything you need, from books to computers with internet connection so you can practice Spanish and you can communicate with your relatives and friends.
